

## APPLICATION FOR REGISTRATION OF A CLEMATIS NAME

This form, duly completed, should be returned to **Duncan Donald, The RHS International Clematis Registrar, 16 Midtown of Inverasdale, Poolewe, Achnasheen, Wester Ross IV22 2LW, UK.** There is no charge for registration or for the issue of a Certificate. If you wish to receive a Certificate of International Registration please indicate below.

Names already listed in *The International Clematis Register & Checklist* or *Supplements* must not be re-used and are not acceptable for registration. Names proposed should also be in accordance with the latest edition of *The International Code of Nomenclature for Cultivated Plants*. Details of these publications are available from the International Clematis Registrar.

Accepted registrations will eventually be published in the *Supplements* to the *Clematis Register*, but registrants should be aware that, until a name is published, it has no nomenclatural priority. Therefore, following registration, registrants may wish to ensure that the name (accompanied by a description) is published as soon as possible.

If possible, please supply a good colour photograph (print or transparency) and a pressed specimen. These, together with the form, will constitute a definite record or 'standard portfolio' for future reference, and will be deposited in the Herbarium at RHS Wisley.

Proposed name (1st choice) ..... (2nd choice) .....

Derivation:  Hybrid → Seed parent (E) .....

→ Pollen parent (Γ) .....

Species selection from .....

Mutation or sport. Name of parent .....

Chance seedling

Hybridized/Selected by: Name ..... Year .....

Address .....

First flowered by: Name ..... Year .....

Address .....

Named by: Name ..... Year .....

Address .....

Commercial introducer: Name ..... Year .....

Address .....

Name and address of person/nursery/company registering name .....

Has the name appeared in a **dated** publication, **with** a description? If so, give details of the **first** such publication (if possible, please send a copy) .....
